

2014 World Bank Webinar: e-Government Self-Assessment Tool for Cities

Date December 16, 2014

Webinar Topic e-Government Self-Assessment Tool for Cities

Host World Bank

Speakers Hak-jin "Frederick" Lim (WeGO Advisor) & Andrey Klochkov (Deputy Director of Regional State Budgetary Institution of Electronic Ulyanovsk Russia)

Program The City e-Government Diagnostic and Solution (CeDS) toolkit, based on a partnership between the World Bank, the Seoul Metropolitan Government and WeGO, was developed and designed specifically for cities. Taking holistic factors beyond technology into account, it is a fast and user-friendly diagnostic tool for cities to self-assess the maturity level of their e-Government environment and fill any gaps in their city e-services in a cost-efficient manner.

This webinar was led by Mr. Frederick Lim, WeGO Advisor, accompanied by a City Case Study presentation by WeGO member city, Ulyanovsk Region, Russia.
